

LIBRARY AND INFORMATION**SCIENCE DIGEST*****Journal of the Nigerian Library Association
Anambra State Chapter***

Volume 5, 2011.

*Editorial**Reporting Innovative Practices in the Profession***Egbuna Seb Anaehobi***Editor – in –Chief*

This volume of the journal has a remarkable difference from previous volumes. The title of the journal has changed from Anambra State Library and Information Science Digest to Library and Information Digest: Journal of the Nigerian Library Association, Anambra State Chapter.

Librarians and academics in the field have the challenge of reporting innovative practices in the profession. Challenges faced in our work environment should be articulated and reported to enable sharing of ideas and solutions to be proffered.

Despite problems facing libraries in developing countries, the state of library services should be reported to provide comparative picture in global development of librarianship. We encourage more empirical studies.

Library and Information Science Digest welcomes you to Anambra State (Light of the Nation) with this 2011 edition as we host the 49th National Conference/ AGM.
